House Mascot Hat

Designed by Zev Hurwich

Materials

-Cascade 220 Yarn (in house colors)

-Size US 7 16" circular needle

-Size US 7 dpns

-Blunt point needle to work in tails

Directions

Note: This is designed to be reversible using double sided knitting. However this can be made single sided using intarsia. Double sided looks nicer, and it's warmer, but it takes longer. When the pattern reads color A that means the color on the outside while knitting, which you choose isn't important as long as it is consistent.
